CARD OF THANKS

Amy Tuttle wishes to extend her thanks to all her friends who were so kind to her during her illness in the Vulcan Municipal Hospital.

IN AND AROUND THE CLUB

Well boys, I hit the bulls-eye last week and that is something. This is the last article you will see in this column by me. We had a good time writing it, and if you had as good a time reading it, that was fine.

To correct any erroneous impressions, I would say that this article has been written without any personal references—without fear or favor—and without the sanction or approval of the Canadian Legion Club.

As the Hottentot used to say: "Good-bye, so long, hello!"

HIGHLAND SCHOOL REPORT

Grade IX—Hattie Woods 65.1; Nellie Woods 62.5. Grade VIII—Evelyn Phillips 74.1; Mona Hanson 68.6; Arlene Hanson 65.3; Frank Woods 62.9. Grade VI—Ruth Robinson 80.1; Stanley Kehr 78.1; Edith Woods 57.7; Russell Robinson 64.5. Grade IV—Clifford Robinson 67. Grade III—Marjorie Kehr 77; Evelyn Rushfeldt 76.4; Bud Woods 20. Grade I—Johnny Rushfeldt; Leo Slyzen, David Hay and Archie Hay absent for examinations.

CLEVER CHILD READER

JOAN MAYHOOD

Joan Mayhood, elocutionist and entertainer, who will appear in Vulcan on February 13th, is only eleven years of age, is a marvel and has appeared at various times in Calgary at such places as the Grand Theatre, the Palliser, and some of the larger churches. The young artist will be assisted with musical numbers by local talent.

Miss Mina Cline, recently of the local staff of telephone operators, left on Monday for her home in Cayley.

D. H. GALBRAITH M.L.A. BUYS SHORTHORNS

D. H. Galbraith, M.L.A. for Nanton has received a shipment of ten Southdown shearing ewes and a ram from the well known flock of Robert McEwen, London, Ont. In describing these sheep, Mr. McEwen writes, "The ram won 2nd prize at the Western Fair, London. His sire was imported and was bred by the King. The sire of the ewes is imported Wilbraham Abbot, bred by R.S. Hicks, who's flock has been successful at the Royal and other shows in England. A wether from our own flock won first at the Royal, Toronto, and the International Chicago, against all breeds. We have also won five times in recent years in the carload championship at Chicago. This is the very highest test of the value of the Southdown sire in the production of commercial lamb."

Mr. Galbraith's purchase was selected by a representative of the Canadian Co-operative Wool Growers, and came west in a combined car shipment to Taber, Alberta. It is worthy of note that the championship in mutton class at the recent show and sale in Calgary was won by a grade Southdown.

"LOCAL NEWS ITEMS

On a cold morning—prove REGAL GASOLINE.

Miss Lorna Ferguson, Parkland, was a Vulcan visitor last week at the home of her father, Mr. R. Ferguson.

Miss Lena Phillips of Black Diamond, is spending two weeks at her home near Vulcan.

Mrs. Maine of Nanton is visiting with Mrs. Shimp and other relatives in town.

K. R. McLean, of McLean and Anderson, Sight Specialists, 224 8th Avenue West, Calgary, visits the King Drug Store Saturday, February 15. Make appointments at Drug Store.

Under the auspices of the Ladies' Circle of the Church of Christ, Vulcan, a recital by Joan Mayhood, Calgary, will take place at Vulcan Theatre, on Thursday, February 13th, at 8:15. Adults 50c. Children 25c.

Messrs. Gordon McKay, Al. Kennedy, Del McQueen, Sam Johnston, Bill Kaiser, Jim Dryden and Tom Whittingham attended the Elks' installation and dance at Champion on Tuesday.

The Clover Leaf Lodge are planning a sale of Home Cooking, Farm Produce, and Sewing, (tea will be served) to be held in the Sunday School Room of the United Church on Saturday, March 15th.

A friendly game of hockey was played on Monday between Red Cross and Highland at the former's rink. The score was 6-3 in favor of Red Cross.

Miss Erna Adam, formerly of the hospital staff, left this week for Blackie where she will spend a few days with her sister. From Blackie, she will go to Forestburg to visit with her brothers.

E. J. Anderson, B. Sc., eyesight specialist, will be in Vulcan at Discher's Jewellery on Wednesday, February 19th. Reading Glasses \$7.50 to \$10.00. Feb. 6-2-c

On Friday night, Mrs. W. A. Howes gave a delightful dinner in honor of Mrs. C. Nesbitt, formerly Miss N. Brazier who was chief operator in Vulcan telephone office. After dinner bridge was played.

The local telephone staff held a very enjoyable bridge party last Thursday evening in the back rooms of the telephone office. Miss Catherine Thomas won first prize and Mr. Scott won the consolation. A very tasty lunch was served. Those present were the following: Mr. and Mrs. Green, Mr. and Mrs. Scott, Mrs. C. Nesbitt, Mrs. Loiselle, Misses Vic Waystrom, Florence Loiselle, Catherine Thomas, Flora Newton, Mina Cline, Mr. Harry Webster and Mr. Norman Todd.

CHURCH OF CHRIST NOTES

10:30, the breaking of bread. Text for the morning message "Vain Religion." If any man among you seemeth to be religious, and bridleth not his tongue, but deceiveth his own heart, this man's religion is vain.

An invitation is extended to all those who do not attend bible school elsewhere. Come and see what we are doing in this line of Christian work. Our program grows better and bigger each Lord's day, and we have something special to offer every Sunday between now and Easter.

A Junior Endeavor will be organized Wednesday evening under the leadership of Miss A. Bantin. Children between the ages of eight to four teen. This will be a real Endeavor and well worth the effort of those taking part in it.

Prayer meeting and study class at 8 p.m.
Senior Endeavor 7:15 Sunday evening, special music. Evensong and praise service. Subject for the evening message, "God's Call to Abraham and God's Call to Each One of Us."

GOOD DEEDS, W. L.

At a meeting of the Good Deeds W. L., at the home of Mrs. Gothard, Friday, January 24, it was decided to postpone meetings until a further date in the spring when roads and weather permit. The members will be advised as to when and where the next meeting will be held and a program will be prepared for the meeting.

Mrs. Gothard assisted by the Misses Nellie and Helen Gothard served a delicious lunch to the few ladies who drove over the icy and drifted roads in order to be present. The president Mrs. H. I. Montgomery drove a total of forty-seven miles in order that she and neighbors might attend the meeting. This is an effort worthy of consideration.

OBITUARY

On Wednesday morning, January 29, Mr. Owen Stackhouse an old resident of the Blackie district, died at Vulcan hospital, aged 57 years.

Mr. Stackhouse during the past three years had been running the Parkland Hotel at Parkland. Previous to that, for more than twenty years he was closely identified with the settlement of the Blackie district. For many years he was engaged in real estate and ran the telephone exchange. He was instrumental in settling quite a percentage of homesteaders on C.P.R. lands of that district. He was born in Iowa in 1873 and came to this country about 1903.

He is survived by his widow and one son, Fay Stackhouse who is stationed in C.P.R. work, west of Red Deer.

ADDITIONAL LOCALS

Ila Dwigans underwent an operation in the Vulcan Municipal Hospital for appendicitis on Saturday. She is making quite satisfactory progress.

Nomination of councillors for the Municipal district of Royal will take place in the I.O.O.F. hall on Saturday afternoon, February 15. All electors are urged to attend.

Don't forget the Dance in the Reid Hill Community Hall Wednesday, February 12—Music by Len Davis and His Royal Arcadians. Admission \$1.50 couple including supper. Extra lady 50c.

Mr. C. B. Shimp has received news of the death of his father, Mr. William Shimp, which took place on January 31 at Long Beach, California. The late Mr. Shimp had lived to the ripe age of eighty years.

Miss Eleanor Jennijohn had her leg broken while playing hockey with her Varsity team in Edmonton two weeks ago. One of the boys from the opposing side crashed into Eleanor, throwing her into the boards. This mishap kept her from going with her team to Banff shortly after.

BIRTH REGISTRY

It is surprising how often the births of children go unregistered. The parents have neglected registration and an individual may not discover the neglect till manhood. Then occasion may rise when he needs it badly and is put to all sorts of trouble and delay in securing it.

An instance, small in itself, but indicative of this general neglect is shown in the fact that quite a proportion of the boys in the local junior hockey team, learned, on making application, at Edmonton that their births had not been registered. They began to wonder if they really did exist, had ever existed or were only imaginary bodies. It has tied up their entrance into league play-offs.

Birth certificates may be demanded for:

1. Proof of citizenship; to obtain a passport for travelling outside the country.
2. Proof of age on occasions when it is demanded.
3. Establishment of identity and parentage.

Even in case of old age pensions, which is, to say the least, looking far ahead, birth certificates are necessary.

Every province requires the registration of births, and Edmonton depends upon this for many of the statistics of the province.

It is the duty of all parents to safeguard their children in this way, and if there is any uncertainty as to whether or not their children have been registered, it would be a good move to write to Edmonton at once and find out for certain.

Three Canadian banks increased their profits over a million dollars each last year.

Returned soldiers want the pension for the aged reduced to 65 years in their cases—the war added five years to their lives. And the loss of sons added more than that to some men who did not get to the war at all.

NEW OFFICIALS FOR TOWN OF VULCAN

Monday last was nomination day for members of the town council, and as but three names were submitted to fill the vacancies created by the expiration of the terms of Messrs. G. C. Collier, Colin McInnes, and W. D. Allan, Mr. Allan was re-elected and the other positions were filled by Messrs. F. M. Anderson and J. N. Johnston.

For the school board, Mr. H. L. Green was re-elected, and Mr. J. T. Willard will take the place of Mrs. Martin whose term has expired.

Mr. W. G. Peterson is re-elected for a further period of two years on the hospital board.

SUCCESSFUL YEAR

On Thursday evening, January 23, the opening of the new basement of the Church of Christ took place with a banquet. One hundred and twenty members and friends enjoyed the gathering together in this way realizing that one more task had been completed in making this church more efficient in carrying on the work undertaken. Immediately after Mr. C. C. Cole of Calgary, entertained the children for a half an hour with readings which were greatly enjoyed by all.

At eight o'clock Mr. H. C. Phillips of Lethbridge gave an inspiring address on "Faith," after which the business session took place, Mr. Phillips was asked to act as chairman.

The financial statement, of the church presented by the chairman of the board was very encouraging, showing a substantial cash balance in the treasury. The report showed \$3,278.57 taken in from all departments including building fund, women's circle, bible school, home and foreign missions, local church fund and christian endeavor.

The report of the growth of the church in a spiritual way was far more gratifying and with the addition of 28 members to the church and a bible school enrollment of 125 we feel richly blessed in the work accomplished for the year 1930.

GROUND HOG DIGS IN

On Sunday, Feb. 2, the groundhog crawled out, took a look round, saw his shadow and retired for another six weeks, or until spring was a surer prospect. If the sun hadn't shone that day our chances for early spring would have been brighter.

SEARCHING FUTURE

Referring to the last thoughts of a statesman, whose loss we are all deploring, Mr. Robb, Canada's late Finance Minister, the Canadian Gazette says:

"His private secretary and confidant, Mr. Watson Sellar, has disclosed the anxiety with which Mr. Robb was watching in the closing months of his life the position of Canada vis-a-vis the outside world, and notably the United States and Great Britain.

"He says that when the King took ill after Armistice Day it had a strange effect on the Minister. The King's hourly condition became a matter of concern. Everything printed was carefully read, and gradually the opinion grew in Mr. Robb's mind that the British peoples were ignoring a great intangible trading strength by not getting together and promoting trade within the Empire. The possibilities of such a scheme appealed to him, and long before the United States began tariff-making he was 'sounding out' friends on the subject of Empire trade.

"He spent hours mentally debating the question, for Mr. Robb rarely placed anything on paper until he had a clear mental picture of what he desired expressed. Gradually he was approaching a plan he felt was practicable, because he was trying it out in strips on his favorite groups—civil servants and newspaper men. Mr. Robb had always argued that these two groups were less self-centred than all others. His plans were never completed, so if Death came when his body was worn out through years of work, it also came when the mental outlook was bright and purposeful. There, unfortunately the disclosures end.

"We only hope it may be for the moment only. The time is ripe for constructive statesmanship as applied to the upbuilding of Canadian national industrialism on lines which shall also strengthen Canada's place as a partner State within the Empire."

INSTALLATION NEXT MONDAY

The newly-elected members, and officers of Vulcan Lodge, No. 121, B. P.O.E. who are going to be installed into office next Monday evening, February 10, are issuing a special invitation for members to be present if at all possible. The officers will be installed by Bro. John Vaselenak, of Lethbridge, and an interesting meeting is expected. All Elks are asked to come along and make the meeting a success, and at the same time give the new officers a good send-off.

The Elks are sponsoring a play to be put on by the Nanton Lodge tomorrow (Friday) in Vulcan. It is a good show, and worthy of our support. Tickets at Bro. King's drug store.

ENSIGN ITEM

A very enjoyable evening was held in the school house when the members of the Ensign Women's Institute entertained their escorts, cards being the diversion. The prize winners were Mrs. E. A. Elston first for ladies, Mr. H. S. Parker, first for gents; Mrs. J. Phillips and Mrs. B. Muchie consolation. A delicious turkey supper was served at midnight.

BERRYWATER NEWS

(Too late for last week)

The annual meeting of the local U.F.A. was held at the school on Saturday, January 18th; Mr. D. B. Sims presiding over a fair attendance. The nomination of a delegate to attend the annual convention in Calgary, resulted in the election of Mr. L. A. Douglass, Mr. D. B. Sims as president, Mr. H. C. Douglass vice president, Mr. P. J. Haslam as sec-treas., were all re-elected. The directors for 1930 are Mr. F. Noble, Mr. J. K. McLean and Mr. H. Amey. The delegates report will be given at the next meeting to be held on February 1.

The whist drives at the homes of Mrs. H. Douglass, Jan. 13, and Mrs. Clifford Love's on Jan. 29 were very successful, there being a good attendance on both occasions. The prize-winners on Jan. 13 were Mrs. F. Messenger first, Mr. Ruckett first and Mr. Lee Richardson second. On Jan. 29th, Mrs. N. Campbell first, Mrs. McLean second; Mr. J. Dempster first, Mr. N. Campbell second. A whist drive was arranged for February 3rd at the home of Mrs. F. Messenger.

Several local residents visited Calgary for the convention and bonspiel.

Mrs. H. C. Douglass was hostess to the Berrywater U.F.W.A. on Saturday, January 18th when Mrs. N. Campbell presided over a well attended meeting. The business session was followed by the reading of the U.F.W.A. resolutions, the discussion of which was led by Mrs. Oldfield. Mrs. E. A. Douglass was elected as delegate in place of Mrs. C. Love who had withdrawn. The hostess at the close of the meeting, invited the U.F.A. member to join the ladies for lunch, which was much appreciated by all present.

KIRKCALDY NEWS

Mr. Bert Maisey was a visitor at home for the week end.

Miss Irene Snyder returned home on Friday after spending the past two weeks in Blackie.

Mr. and Mrs. Herman Dunbar and Mrs. A. W. Maisey were visitors at home of Mr. and Mrs. Finkess on Thursday.

Mrs. A. J. Maisey returned home on Saturday after spending the past two weeks in Calgary.

Miss Doris Laurie was guest of honor on January 31st when six little guests surprised her for her seventh birthday. Games were played, then supper was served.

UNITED CHURCH NEWS

The regular services will be held at the United Church next Sunday, February 9th at 11 a.m. and 7:30 p.m. Special music by the choir.

Adult Bible Class, Sunday afternoon at 2:30. Music by class orchestra.

The C.G.I.T. girls will hold a tea and sale of home cooking in the Sunday school room Saturday afternoon of this week, February 8th from 3 to 6.

A hearty invitation is extended to all to come and assist the girls in their work.

SPRING IS COMING

Every person according to his age and inclination is beginning to get the usual signs which tell him spring is coming. The gardener is toasting his toes and feasting his soul on his brand new seed catalogues. The naturalist has caught the flash of a robin. The teacher is sure because the children are growing twitchier. Father realizes it because the light bills are beginning to drop and mother knows spring had better come because the winter flannels are beginning to wear mighty thin.

TOM WHITTINGHAM
Editor and Manager

TWO WISE LEADERS

The United Farmers of Alberta have functioned under happy conditions in having as their two great heads, Henry Wise Wood and Premier Brownlee. Without such outstanding leaders, it is easily conceivable that they might have made many errors of inexperience during the first few years of their authority. With these leaders to guide and advise, the farmers' organization itself has grown in wisdom and stature. As a government the U.F.A. has responded to responsibility. It has become adult, eliminating much of the early radicalism, moving with caution, and encouraging wise legislation.

The farmers themselves are first to acknowledge how much they owe to the leadership of Wood and Brownlee, who are men of whom any party, organization or country might be proud.

Mr. Woods re-election to the presidency of the U.F.A. this year for the fifth time, is a tribute not only to his ability, but to his personality. He has mobilized conflicting forces as probably no other than himself could have done so well.

INDUSTRIES GROW

A total of 56,981 employees were engaged in industrial work with 2274 Alberta firms during the fiscal year ending March 31, 1929, and received in wages and salaries a total of \$60,304,803 according to the annual report.

This shows the greatest industrial expansion in the history of the province, being an increase of 24 per cent. in the number of males employed, and of 32 per cent. in the number of females, while new industries gave employment to 7000 people during the year under review. The total number of persons employed were: Males over 18 years, 43,384; under 18 years 935; total males, 49,319. Female, over 18, 7291; under 18, 371; total females, 7662.

THINK IT OVER

One thing which pleases the publisher of a newspaper immensely, says an exchange, is to have someone ask for a big boost for something and then try to beat the printer down on the prices of his work, or get it done somewhere else. If free boosts are wanted, it is well to remember they cost the publisher real money for typesetting and other expenses and, on that basis, the newspaper is entitled to all the printing business of its community, for it is ever called upon to boost many things without charge.—Exchange.

TOWN FACTORIES

The city of Red Deer this week has received gratifying confirmation of the final decision of the Eddy Match Co. to establish a factory site at that point. In this achievement, Red Deer has secured the location of an established concern in the face of keenest competition from larger cities.

Main factors in inducing the Eddy Co. to locate its factory there, were the timber country to the West, the hydro and waterpower available, and the excellent railway service from both railways, west and north-west.

The city commission and council were assisted in their negotiations by the officials of both railway companies and the Calgary Power Co. who co-operated in working out the details.

Four thousand dollars has been paid for a factory site of 40 acres near the river.

Although negotiations were begun in 1928, yet a complete investigation of timber facilities, etc., had to be made before Red Deer's suitability could be assured. It is expected that work will be commenced shortly.

The location of this branch factory in a small centre, rather than in a large city, gives emphasis to the growing tendency of big manufacturing concerns to seek less congested points.

This new tendency in industrialism should command the interest of all towns and civic organizations. Our own town offers facilities unsurpassed by any town in Alberta, and no effort should be spared in giving these facilities full publicity.

OUR COAL MARKET

Both Alberta and Ontario are disappointed in the decision of the Board of Railway Commissioners that \$8.23 per ton is a proper charge for hauling Alberta coal to Ontario. The old rate was \$6.75 and the increase is not welcomed in Ontario, nor in Alberta.

Alberta coal has a good and growing reputation for heating quality, and if it could be secured in sufficient quantities to assure the householders would be very generally used. Ontario is loath, after the experience of the strikes of 1923 in Pennsylvania, ever again to be absolutely dependent on foreign coal. And in addition to being a Canadian product, the Alberta coal was responsible in cutting hard coal prices for Pennsylvania.

It has also meant much to Alberta to have this satisfied market for her product.

Whether the new price of \$8.23 per ton will discourage this new trade is a question, and should be considered by the government as an important feature in all-Canadian trading.

HOW TO GROW YOUNG

A prominent local citizen was asked this week, for his opinion of the influence of sport on the town. After thought, he stated that he considered it did no great harm to the participants provided they were physically strong and level headed before they went into it. Its influence however, on fans, is much more marked. It makes them younger, whereas last year they seemed to be at least adolescent, this year they are practically infantile.

OF REAL BENEFIT

Sir Esme Howard, British Ambassador to U.S.A., speaking on the great help which has been given him by the presence of a Canadian Minister at Washington, points out Canada's enviable position in having no hostile neighbors. "Some think that the north geographical situation of Canada is a drawback," he said, "but I don't feel so sure about that, because it ensures you forever from the danger of the problem of mixed races which is a most serious one in southern countries; and it ensures also from the relaxation of mind and muscle which often is the result of too constant contact with the sun god. You are endowed with thousands of square miles of fertile plains, with millions of horsepower of electricity waiting to be harnessed with lumber and wood pulp almost incalculable and lastly with a wealth of mineral deposits which have yet only been scratched. You have all this and you have also the unspeakable blessing of political security without fear from attack from without."

LESS EXPORT

The total value of declared exports from the province of Alberta to the United States in 1929 amounted to \$6,852,068, a decrease of \$1,748,223, or more than 14 per cent. less than the figures for the calendar year 1928 according to the annual report issued by S. C. Reat, American consul at Calgary. This is practically the same ratio of decrease as shown for 1928 as compared with 1927.

In the consular district of Calgary the decrease in exports for the year was \$834,666, reduced exports of cattle accounting for \$679,455 of the drop. In 1928 the total number of cattle shipped to the United States was 32,727, valued at \$2,256,303, while in 1929 23,555 head of cattle with a value of \$1,576,853 were exported.

The cause of this decrease is given as the very moderate demand in the United States in 1929 for cattle in the stocker, feeder and butcher grades. In 1928 American importers of cattle contracted for butcher stock at high prices, but this demand was greatly curtailed during the past year.

WHERE WILL IT END?

Radio owners in Canada can listen on Sundays to comic operas, play by play reports of football and hockey matches, details of every movement made and of every blow struck in prize fights taking place in American cities. They can also learn on Sundays, the merits of many articles on sale by American dealers by listening to the advertising that is becoming so widely broadcasted on that day as on every other day of the week. Will the permission given broadcasting stations to make money by providing amusement and promoting business in this way result in a demand in Canada for the opening of Sunday theatres and dance halls and the issuing of Sunday newspapers, all of which is now general in the cities of the United States? Where will the liberty so far granted end? Will Canada become Americanized in this as in so many other matters? The Government of Canada cancelled the license of a broadcasting station because of objection to the programmes that were being put on the air from week to week. There are things quite as undesirable as peculiar interpretations of scripture or as criticism of some of the leaders of thought in both countries.—Brampton Conservator.

POST OFFICES FEWER

A total of 12,430 post offices operated in Canada last year, according to a report just issued by the post office department. This is a decrease of 48, accounted for by the establishment of rural free deliveries. This gross revenue of the department showed an increase of \$1,321,437 over the previous year, but \$633,446 of it was absorbed by increased payments to rural postmasters. Similarly, it is pointed out, that if the department had been indemnified for the franking privilege enjoyed by various other departments the revenue would have been increased by an additional \$750,000. The net revenue of the year was \$31,170,904 and the expenditure \$33,483,068.

TENDERS FOR SCHOOL HOUSE

Sealed tenders will be received by the Board of Trustees of Kirkdale School District, No. 3613, at the office of the secretary-treasurer up to noon the 21st February, 1930, for the erection of a two-roomed frame (14x20) school building and teachers' residence. Plans and specifications may be obtained from secretary-treasurer on payment of a deposit of \$5.00. Plans must be returned within 24 hours, and deposit will then be refunded. A marked cheque for five per cent. of the amount of tender should be enclosed with each tender as a guarantee that same is bona fide. The lowest or any tender will not necessarily be accepted.

Vol. 2. VULCAN, FEBRUARY 6, 1930 No. 7

Vulcan Herald
Published in the interests
of the People of Vulcan
and the Farms and the
Farmers of the District.
J. T. WILLARD, Editor.

What is the condition
of your McCormick-Deering
Tractor? If a little
servicing will help, don't
forget that we are here to
help you.

In a crowded tram car
"Excuse me ma'm, here is
a strap."
"I have a strap, thank
you."

"Nothing of the kind,
you have hold of my ear."
He: "Don't you think
you could grow to love me?"
She: "I'm afraid not,
I've stopped growing."

We are glad to learn
that Mr. Jennejohn is making
a splendid recovery
from his recent operation.
But take a tip from us and
don't ask him too many
questions about hot dogs.

Manager: "How long do
you want to be away on
your honeymoon?"
Clerk: "Well sir—how
long would you suggest?"
"How do I know?"
"I haven't seen the bride."

"Aren't you paying too
much rent for this studio
old man?"
"No, but I'll admit the
rent is too high."

Rouge, lipstick and bobbed
hair does not make an
antique a modern.
Nice weather, eh?

SERVICE
That's our middle name
when it comes to tractors
and implements generally.
Just drop in and see our
stock of repairs—how we
are equipped with special
tools for a complete tractor
overhaul, and you will
readily see why the majority
of farmers prefer the
McCormick-Deering. Real
service coupled with low
first cost and proven dependability under all
conditions makes the McCormick-Deering your logical
choice.

URGES GAS CONTROL

Commission on Turner Valley Field
Reports Serious Wastage

The report of the joint commission which has been at work on the problem of Waste Gas in the Turner Valley field, has been made public by Hon. Charles Stewart.

The findings of the commission are: "That for each barrel of naphtha recovered, the waste products are 50000 cubic feet of gas and seven gallons of volatile products. Wastage has increased steadily during the past five years. In October 1929, it was 200,000,000 feet per day, which is operations under license of about forty producing companies. Both producers and wastage will probably be on the increase. About thirty per cent. of the area is operated under government license. The mining rights of about 70 per cent. of the area were obtained from the Crown many years ago.

No voluntary steps of consequence have been taken to curtail wastage or prolong the lives of the wells.

It may be to the advantage equal in heat value to 9000 tons per acre. "The wastage takes place through of the individual producer to get quick returns from his investment, it is decidedly not in national interest or in the ultimate interest of the producer himself, to permit this rapid dissipation of a great national asset for the immediate benefit of the few. "Unless immediate steps are taken by the Canadian Government and the Province of Alberta to regulate adequately all operations in the gas field the conservation of the supply of natural gas, and the development of industry based on this resource will not be possible.

The obvious solution is still either to reduce production to a point where all products can be utilized or to curtail production by the introduction of wastage.

Conservation can only be made possible by conservation methods designed to protect rights of individual operators to increase recovery of valuable constituents and to reduce the present day of high grade Crows' Nest coal. sible by recognizing the fact that Turner Valley is a gas field and the forming of rigid regulations for the purpose of controlling all phases of the gas industry.

These regulations should be administered by one body representing federal and provincial parliaments. If existing legislation is not adequate to protect public interest, it should be re-drafted to meet the situation.

"Without control of this gas supply, industries cannot be assured if an adequate supply of gas, over a long enough period of time to warrant essential capital investment."

Premier Brownlee in commenting on the report of the commission said: "It is a big thing to handle and we want ample time for study and consideration. We want to be fair with private investors and to the industry already established. No matter what procedure is taken, you may be sure there is no cause for alarm."

Representatives of Provincial and Dominion Governments will shortly confer.

LIQUOR PROFITS

With a net profit of \$2,661,048 rolling in from liquor profits, the government should be sitting pretty. The country appears to be thirstier to the extent of \$623,000 increase in revenue in 1929 than in 1928.

In many other provinces, the revenue derived from liquor sales is divided with municipalities for hospital school and road purposes. The Alberta government however, steadily refuses to set aside any of these special revenues, such as liquor, gas etc., for any specified purpose. Most people are unable to see satisfactory reason for this system of turning everything into the general fund. They would prefer to see some specific accomplishment from liquor profits and from gasoline-tax also.

With all this increasing revenue to work with, there seems no reason why taxes should not be made less of a burden than they have been in recent years.

IN THE GAS MARKET

Offer from the Bank of North Dakota to consume 50,000,000 cubic feet of the 200 million now going to waste in Turner Valley was considered at the director's meeting of the Oil and Gas Association, Wednesday evening. A price of half a cent a thousand feet was offered but no mention was made of transportation.

After discussion the offer was referred to Canadian Western Natural Gas, Light and Power Company, and to the Royalite Company.

The meeting decided to urge all political parties to choose candidates who would represent in the legislature the oil and gas interests of the province. It was felt direct representation would facilitate handling of problems affecting the industry.

It was learned that the federal department at Ottawa had increased its staff and facilities for dealing with matters affecting the oil business. H. Sawley, secretary, reported the membership campaign recently conducted in Vancouver, when 30 were enrolled. He stated there was a strong possibility that an additional 100 may be soon obtained.

MINERAL SALTS GIVES HER TIRED HUSBY NEW PEP

"My husband took 2 bottles of Vinol. Now he has good appetite and more strength, pep and vigor than he ever had." —Mrs. Ralph Starkey.

Doctors have long known the value of mineral elements of iron, calcium with cod liver peptone, as contained in Vinol. Nervous, easily tired people are surprised how Vinol gives new strength, sound sleep and a big appetite. Gives you more PE! to enjoy life! Vinol tastes delicious. —Errett King, Druggist, Vulcan, Alberta.

DRAWING TOURISTS.

In interesting phase of the tourist trade of Canada lies in the fact that while much of the work being carried on by the government is primarily for the benefit of Canadians, nevertheless it is a strong drawing card to tourists.

Our national parks which are being constantly improved, have now a world-wide reputation and draw yearly, increasing throngs of seekers after health and pleasure.

The setting aside of bird sanctuaries, shooting grounds, historic sites, and the development of centres for summer and winter sports, has added greatly to Canada's drawing power.

These attractions, designed for Canadians, are becoming more widely known every year and in every tourist attracted to the country, there lies a possible settler and booster.

The tourist trade brought over \$300,000,000 to Canada last year, and as yet the tourist industry is merely in the making.

It has been suggested that the benefits to Canada could be greatly increased, if special effort were made to bring to the attention of visitors, some of the articles and products in which Canada excels. Souvenirs of a country are usually purchased, and if these souvenirs could be useful, distinctive and of real value, they too, would prove another drawing power.

ITEMS OF INTEREST

At the Chicago International Fair of the 118 major prizes for grain, livestock, etc., 97 came to Western Canada.

F. S. Wetherall, poultry man of Calgary, won several prizes at the American Poultry Show, New York City.

Homestead No. 1, just north of the East Crest wells, is down 4100 feet and is expected to get the lime any time.

Several wells around Hartell are expected to come in within a month: Home No. 4, East Crest No. 1, Lowry, Baltac and several others are drilling close to the producing horizon.

FARM LIFE DOES IT

It's the farm that produces the boys that climb to the high places. The Vancouver Province in a survey found that most of the leaders in that city had worked on a farm at one stage or another in their lives. Major-General McRae and Chas. Woodward, leading department store owner, started off at "50 cents a day wage and all they could eat." General J. W. Stewart, who commanded Canada's railway construction corps overseas during the war, worked as a laborer on a farm in Quebec. Mayor Malkin also reported that he had worked on a farm at one time. All the Prime Ministers of the Western provinces started life on the farm. And we are sure there are just as ambitious boys on the farm today, and they will rise in Canada's service in the years to come.—Lethbridge Herald.

GET HOT BABY

Dr. Robert Armour, one of Canada's former neurologists has endeared himself to young people, and jarred the pet theories of the old by declaring that "the pace that kills" is not really the hectic rush and bustle of modern life, but the monotony of the quiet evening by the fireside. "Functional nervous disorders cannot be laid," he says, "to the stir of modern civilization, but to the stupidity and monotony of most households. Teachers seem to be special prey to these disorders, because their lives are so often monotonous. Instead of taking a rest cure in Easter holidays, they should take their money and go to New York for a fling.

The tired business man, who insists on sitting by his fireside all evening, is taking the worst possible care of himself. He should get out of his groove and mix. He should have outside interests."

Whatever the merits of his assertions, he need never feel that he is a voice crying in the wilderness. His teachings have an infinite army of followers. If the home fireside spells wreckage and ruin, most of the younger generation at any rate, are not going to be caught in the melee.

SHEEP PROFIT

Farmers of south-eastern Alberta, are enthusiastic about sheep raising, especially those who can feed beet tops to their flock. Last week Cardston farmers sold a total of 237 lambs at splendid profits. One man sold 100 lambs averaging 97 lbs. each which were progeny of 100 ewes bought last April at \$12 a head. The ewes produced wool to the value of \$1.68 each. The lambs have averaged \$10.25 each and with the wool \$1.68, makes the original investment of \$12 bring \$11.93 each. And he still has his ewes.

The beet tops which were fed the lambs this fall, helped their growth greatly.

Two Girls Live on Hot Water and Rice

Due to stomach trouble, Miss A. H. and sister lived on hot water and rice. Now they eat anything and feel fine, they say since taking Adlerika.

Even the FIRST spoonful of Adlerika relieves gas on the stomach and removes astonishing amount of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. —Errett King, Druggist, Vulcan, Alberta.

I hereby certify to the correctness of this Statement.

Dated at Vulcan this 31st day of January, 1930.

(Sgd.) McCANNELL BROS. & CO., Auditors.

J. K. McLEAN, Secretary-Treasurer.

Take Notice that a meeting of the Electors of the Municipal District of Marquis, No. 157, will be held in the Lake McGregor School, at one o'clock in the afternoon; on Saturday, the 15th day of February, 1930, for the discussion of the affairs of the district and the nomination of candidates for the office of councillors and that such nominations will be there and then received between the hours of three and four o'clock in the afternoon. Also for the nomination of candidates for the Vulcan Municipal Hospital Board.
